### Full Arabic support

The LAM 6000 Series of modules configure specific models of laserjet printers to print Arabic text with full transparent support. It takes only few minutes to install providing full compatibility with other Globalis peripherals. Thus, standard host application software can send bilingual Arabic and Latin text to print easily and quickly without any special Arabizing host software or device drivers.

### Precise & clear Arabic printing

Completely developed and supported by Globalis, the LAM 6000 Series is well known for the fine and clear Arabic calligraphy it offers. In addition it ensures that your laserjet printer prints texts with all clarity and elegance.

These modules use various standard Arabic character sets and a wide selection of Arabic fonts ranging from 10 cpi to 17 cpi. The fonts vary from Turath and Akhbar typefaces for letters, Naskh and Koufi mono space typefaces for reports and Bayanat for listings and spreadsheets. It is designed to offer clean printouts and the result is guaranteed to be excellent.
